

## ARTIST PROFILE

**Sergio Marini**, also known as **Sygma**, is one of the most eclectic artists in the Italian dance scene.

Artistically born in the late '90s, he is a DJ, music producer, and vocalist with a career that spans multiple tracks reaching No. 1 on both Italian and international dance charts, collaborations with prestigious artists, and performances on stages across Italy, including tours with Radio **m2o**. He collaborates with various Italian and international record labels: from **Time Records**, with which he released his track **MEMORIES** on vinyl, to **DIY**, where he worked as a remixer for **Molella's** track **TELL ME**.

He then moved on to **m2o** compilations, starting a partnership with **Provenzano DJ**, founding the projects **Italian DeeJays**, **Mars Trek**, and **Rhythmix** together with **Alberto Remondini**. These projects reached No. 1 on the charts with tracks that not only gained support from all DJs in the industry (including those tied to competing radio stations) but also filled dance floors and squares. The track **REAL LOVE**, featured among others in the **m2o vol.11** compilation, hit No. 1 on the radio's charts. **Italian DeeJays**, by **Sygma & Provenzano**, became not only a dance project (with the track **EUROFOLK** licensed to

various compilations) but also a radio show exclusively syndicated across South America. The **Mars Trek** project, with singles **THE DRILL** and **MONOTEMA**, earned the distinction of being one of the very few artists supported by **Gigi D'Agostino** in his live sets.
